1. Check your starting and destination station, plus any connections, using the symbols shown in 'How to use this map'.

Also refer to the Station Index overleaf for additional access and connection details at each station.

- 2. Check your return journey as this may require a different route or use an alternative station entrance.
- 3. Check that you can manage the step and gap from the platform to the train.
- 4. Check planned engineering works and the availability of station lifts at tfl.gov.uk/status-updates o tfl.gov.uk/plan-a-journey, or by calling Transport for London's 24 hour travel information number 0343 222 1234* (Network charges may apply. See tfl.gov.uk/terms for details).

How to use this map

This map highlights all stations where you can get between the platform and street step-free, or change between lines step-free. Stations where this is not possible are shown in light grey. **Step-free stations are marked** with a coloured symbol and a letter showing the size of the step and gap between the platform and the train, as follows:

The step between the platform and the train is shown by the following symbols:

- 0 50mm (0 2 inches)
- **6** 51 120mm (2 4.7 inches)
- **Over 120mm (4.7 inches)**

The gap between the platform and the train is shown by the following letters:

- A 0 85mm (0 3.3 inches)
- B 86 180mm (3.3 7 inches)
- C Over 180mm (7 inches)

At stations marked with these symbols you can change betweer lines step-free (sometimes only in one direction).

You will not be able to get in or out of the station without using stairs and/or escalators.

Example

At this station you can change stepfree between the ─ Jubilee and

Bakerloo lines, but not between these lines and the Metropolitan, Circle and Hammersmith & City lines.

At these stations you can change onto National Rail (sometimes only in one direction).

At stations marked with a blue box and exclamation mark please arrive at the correct entrance for your direction of travel. Refer to the index overleaf. Please also refer to the Key to symbols on the map.

Examples

These stations have the smallest step and gap and are suitable for most customers including wheelchair users.

These stations have varying levels of steps and gaps and may be suitable for customers with mobility impairments, those with luggage and buggies, and some

access may only be available at
