

TFA's Asks

TfA

- ▶ **Free 60+ Oystercard transport for 24 hours** instead of after 9:30am to support key workers returning to work.
- ▶ Transport providers to provide **free travel for carers and PAs**.
- ▶ **Increase the number of people eligible for Taxicard and Dial-A-Ride services** by broadening the criteria. E.g: include the lower rates of Attendance Allowance and Disability Living Allowance and lower the DAR eligibility age from 85 to 70.
- ▶ Vital services such as **Turn Up And Go and Passenger Assist must be protected** and not put on hold due to 'social distancing', as disabled people still need access to essential travel.
- ▶ Dial A Ride should offer **grocery and pharmacy delivery** to its users, as they are in a position to be able to drop off items in multiple houses in the same area.
- ▶ Taxicard should be available to disabled people for **transport to hospitals**, as it's a safer way to travel than public transport.
- ▶ Councils should help with providing **shopping delivery to disabled people** as there is a shortage of delivery slots.
- ▶ **PHVs (Uber, Bolt, Kapten etc) could offer discounted travel for disabled people** with incentive provided encouragement/incentive scheme from Mayor of London/TfL to support this.

We're calling on the transport sector to protect disabled rights during the COVID-19 crisis
